Subject:Contingency Plans for February 5-6 weekend & next week

Sent on behalf of Supt MacLeod

Good afternoon all,

- OPS has announced a plan through the media to isolate & block protestors around Parliament Hill & the downtown core. This causes an increased concern of the incoming protestors moving to our two protected sites. For your SA enforcement actions by OPS in the City core or at Confederation park could cause flashpoints around the NCR.

DIVISIONAL COMMAND GUIDANCE FOR OUR CIP POSTURE

- As a follow up to our meeting please see the below review of command guidance for planning our new weekend posture
- We will return to a more relaxed posture as soon as risk and threat assessment allows

a) RCMP s.37 Posture (No Change):

Mission: Protective support to PMPD. This posture will be held as long as s.37 one is on that site.

s.37

Both will liaise with i/c of PMPD and uniform site detail to discuss and plan actions on, in case of an emergency / RCMP Air Services on standby for re-enforcement or evac.

b) RCMP CIP surge capacity posture at holding area (1200 Vanier):

Mission: Protective support surge to s.37

To be in place 0700 Saturday Dec 5 at latest.

To last until Monday Feb 7 0700 (TBD based on threat assessment).

s.37

Lead CIC for review of plans and signature is Inspector Eric Lanteigne
